The information below will guide you through the steps to complete ACA Year End Processing in Wurk.

#### Before you begin processing, ensure the following are completed:

- ACA Profiles are assigned and correctly effective dated. Initial assignment of ACA Profiles are to be assigned to the 1/1/2012 date line. However, when an employee's Employee Type changes during their tenure (i.e. Full-Time to Part-Time / Part-Time to Full-Time), it's critical they are assigned to a different ACA Profile and it's effective dated according to the date of their Employee Type change.
- 2. *Benefit Profiles* are assigned and correctly effective dated according to the first date the employees' **medical** benefits would begin.

# ACA Processing Steps

#### 1. Recalculate Employee ACA Timelines

- Team (double person icon) > Benefits > ACA > Employee ACA Actions
- Select all employees > click Recalculate (select 2020)

#### \*\*Recalculating large amounts of employees could take up to 45 minutes\*\*

- > To lessen recalculating time, filter by ACA Profile and recalculate by smaller groups of employees.
- While employee timelines are recalculating, you may open another window and continue working on other items while the recalculations are in process.
